PREVIOUS EXPERIENCE

Remote — Freelance Web Developer

JUL 2023- Now

I specialized in creating fully functional web applications, leveraging my full-stack development skills. I was responsible for designing, implementing, and maintaining the front-end and back-end components of these applications.

- Web Application Development: Developed comprehensive web applications using Angular/React for the front end and Node.js with TypeScript on the backend.
- Database Integration: Designed and integrated databases including PostgreSQL, SQLite, and MongoDB to handle complex data management tasks, enabling secure and efficient storage and retrieval of large datasets.

OSF Digital, Remote — Backend Developer

JAN 2022-JUL 2023

As a web developer, I played a key role in maintaining, designing, and implementing solutions based on JavaScript (Node.js)

- Conducted manual and integration testing for features I added, and developed automated unit and UI tests.
- Worked with the Salesforce Commerce Cloud ecosystem, including creating custom cartridges and pipelines, and integrating with third-party systems.

During my time in this role, I developed a comprehensive understanding of JavaScript and Node.js for backend development, focusing on creating robust and scalable web applications. I utilized Angular for front-end development, enhancing the overall functionality and user experience.

30Hills, Belgrade, Serbia — Backend Developer Intern

JUN 2021-SEP 2021

During my internship, I had my first experience with JavaScript and Node.js frameworks. This opportunity allowed me to actively engage in the learning and application of these technologies, design, and maintenance of web applications based on the MEAN stack.

- Participating in daily scrums and team meetings, enhancing my understanding of project management and agile methodologies.
- Assisting in the design of the project structure, gaining insights into effective backend architecture using Node.js.
- Implemented my first test suite using Mocha for an Express.js application, enhancing code reliability

EDUCATION

Singidunum University, Belgrade, Serbia — Software and Data Engineering

HARD SKILLS

Node.js(Express)
PHP/Symfony
Go
Python
SQL/ PostgreSQL
MongoDB
Typescript,
Javascript
React
HTML/Tailwindcss
Playwright
Redis
Git

SOFT SKILLS

Communication Skills
Teamwork and Collaboration
Adaptability and Flexibility
Time Management and
Organizational Skills
